

Types of Gardens

Decide what works best for your space

Raised Beds

- A container or box full of soil that is commonly made of wood
 - Flexible placement options
 - Better control over soil quality and weeds
 - Deep beds allow plenty of space for roots to grow
-

In-Ground

- Offers more square footage
 - Cheaper than raised bed garden areas
 - Takes advantage of existing rich, healthy soil
-

Container

- Growing plants in pots or containers
- Requires little space
- Can be moved easily
